

# American History and American Institutions Requirement

The American History and Institutions (AH&I) requirements are based on the principle that a US resident graduated from an American university should have an understanding of the history and governmental institutions of the United States.

**Before enrolling at Berkeley**, students may satisfy both the American History and American Institutions in the following ways:

**High School Course Work:** By satisfying the portion of the area "a" (History/Social Science) subject requirement for freshman admission that consists of (1) one year of US history or (2) one-half year (semester) of US history AND one-half year (semester) of US government in high school with letter grades of C or better.

**Advanced Placement or SAT Exam:** By passing the Advanced Placement American History exam with a score of 3 or better; or the SAT Subject Test in US history with a score of 550 or better (500 or better if taken before April 1995). (NOTE: Only the American Institutions requirement may be satisfied by passing the high school Advanced Placement US Government exam with a score of 3 or better.)

**International Baccalaureate Exam:** By passing the International Baccalaureate Higher Level (IB-HL) History of the Americas exam with a score of 5, 6, or 7.

**Other College or University Course Work:** By passing with a grade of C or better or P (if Pass is equivalent to a C [2.00]), one quarter or semester of a UC-transferable course in basic US history or US government at a college or university before entering Berkeley. Students may also go to ASSIST, (<http://www.assist.org/web-assist/welcome.html>) the California transfer information system, to find California community college courses that have been approved to satisfy the American History and American Institutions requirements.

**Other UC Campus:** For students transferring from another UC campus: by passing any course or courses that satisfy the AH&I requirements of that campus. For inquiries, please contact the Central Evaluation Unit by opening a case (<http://studentcentral.berkeley.edu/open-case>) with Cal Student Central.

**After enrolling at Berkeley**, students must satisfy the American History and Institutions Requirements by passing any course or courses that satisfy the AH&I requirements.

## Frequently Asked Questions

### What are the American History and Institutions (AH&I) requirements?

The AH&I requirements constitute two of the University's graduation requirements. They were established in accordance with Academic Senate Regulation 638, which reads as follows:

"A knowledge of American history and of the principles of American Institutions under the federal and state constitutions is required of all candidates for the degree of A.B., B.Arch., and B.S. This requirement may be met by passing an examination or examinations under the direction of the appropriate committee, or by passing any course or courses of instruction that may be accepted as satisfactory by that

committee. The papers submitted in the examination shall be rated 'passed' or 'not passed'."

However, UC Berkeley does not currently offer an exam or exams to satisfy the requirements.

### In CalCentral it indicates that I still need to satisfy my AH&I requirements, but I took the necessary course work (or exam) in high school or at another college. How do I fix this?

If the course you completed was approved to satisfy the requirements, but about mid-way through your first semester at UC Berkeley your records still indicate that you have not satisfied your AH&I requirements, please contact the Central Evaluation Unit by opening a case (<http://studentcentral.berkeley.edu/open-case>) with Cal Student Central.

### As a California community college transfer student, I satisfied the IGETC requirements. Does this mean I have automatically satisfied the UC's AH&I requirements?

No. Unless you passed one of the approved American history or political science courses at your colleges, you have not satisfied the AH&I requirements. Use the California transfer information system, ASSIST, to find out what courses are approved at the California community college you attended before transferring to UC Berkeley. Remember, many transfer students satisfied the requirements in high school.

### May I take an online class from UC Cross-Campus Enrollment or a community college in spring together with my regular curriculum at Cal?

You must request and receive approval from your College to be concurrently enrolled at Cal and another college during a regular academic term (i.e. Fall or Spring). Contact an advisor in your College.

### May I satisfy the American History or the American Institutions requirement by taking a class at a community college in the summer after I graduate?

You may take use a community college course taken during the summer after you've met all other requirements to graduate, BUT then, you must delay your graduation date from Spring to Summer as you will not have satisfied the requirement by the end of the Spring Semester.
